

MobileTel, Inc.
TTY REPORT
January 15, 2002

1. **Network infrastructure software development**

MobileTel, Inc. utilizes Nortel Networks switch to provide digital wireless services in certain areas throughout its market. **MobileTel, Inc.** understands that Nortel Networks has completed its development of software and product tests (see letter from Nortel submitted in the July quarterly report of the TTY Forum (“Nortel Letter”)).

2. **Handset development and testing plans**

MobileTel, Inc. must rely on handset vendors to develop the required handsets. When handsets are available, testing can be performed with area PSAPs to insure compatibility.

3. **Beta testing and lab testing**

MobileTel, Inc. must rely on Nortel Networks and handset vendors for initial conformance testing.

4. **Release and general availability to carriers of network infrastructure software**

MobileTel, Inc. understands that Nortel Networks’ enabling software load, MTX10, is scheduled for General Availability Week 44, 2001 (see Nortel Letter).

5. **Availability to carriers to full acceptance test units**

MobileTel, Inc. understands that Nortel Networks plans to test and confirm the solution performance.

6. **Efforts toward achieving digital wireless solution capability with enhanced TTY devices**

MobileTel, Inc. understands that the solution provided by the MTX10 software load addresses Baudot type messages only. Other capabilities may be included later, after standards are adopted.

7. **Carrier coordination of testing with PSAP**

See response to item 2. above.

8. **Carrier testing activities, including field testing, consumer end-to-end testing, and other necessary tests**

MobileTel, Inc. is scheduling installation of Nortel MTX10 software and is coordinating the installation and testing with the anticipated cut over to a new billing vendor. **MobileTel, Inc.** plans to have installation and testing of the MTX10 software completed by the June 30, 2002 deadline.

9. **Retail availability of necessary consumer equipment.**

It is unknown when handsets will be available. **MobileTel, Inc.** understands that the MTX10 software is the only requirement for implementation. The company has not been informed of any required hardware changes.

10. **Geographic scope of network infrastructure deployment**

Houma-Thibodaux, Louisiana Market – CMA 184

Respectfully Submitted,
